5.0 Dice and Table Operation

- 5.1 Subject to rule 6.1, a set of 5 dice shall be present at the craps table during play. The stickperson at the table shall be responsible for the control of the dice and shall retain all dice, except those in active play, in the dice bowl at the table.
- 5.2 After receiving the set of 5 dice at the table either at the opening of the table for gaming or when new dice are brought to the table during the course of play, both a dealer and the game supervisor shall inspect the dice independently of each other. The dice shall then be placed in the dice bowl.
- 5.3 At the beginning of play, the stickperson shall offer the set of dice to the player immediately to the left of the game supervisor at the table for that player to throw. If that player rejects the dice they shall be offered to each of the other players in turn, clockwise around the table, until 1 of the players accepts them. To be eligible to throw the dice a player must have a wager on a Pass Bet or a Don't Pass Bet at the time of the roll.
- 5.4 The first player to accept the dice when offered shall become the shooter, and shall choose and retain 2 of the dice offered. The remaining dice in the set shall be returned to the dice bowl, which shall be placed immediately in front of the stickperson.
- 5.5 After choosing the 2 dice, the shooter shall throw them so that they leave his/her hand simultaneously and in a manner calculated to cause them to strike the end of the table farthest from him/her in a random manner. When handling or throwing the dice the shooter shall use 1 hand only.

- 5.6 When the dice come to rest after a valid roll the stickperson shall at once call the total and then collect the dice and bring them to the centre of the table between himself/herself and the game supervisor.
- 5.7 All wagers decided by that roll shall then be settled in accordance with section 4, following which the stickperson shall pass the dice to the shooter for the next roll. When collecting the dice and passing them to the shooter the stickperson shall use the craps stick.
- 5.8 The shooter may, after any roll, either pass the dice or (if eligible to do so) remain the shooter, except that:
- (a) the shooter shall pass the dice upon throwing a 7 Out; and
 - (b) the game supervisor may require the shooter to pass the dice if the shooter unreasonably delays the game, repeatedly makes invalid rolls, or contravenes the rules of the game.
- 5.9 Whenever a shooter relinquishes the dice in the course of play the stickperson shall offer the complete set of 5 dice:
- (a) to the player having either a Pass Bet or a Don't Pass Bet immediately to the left of the shooter relinquishing the dice; and
 - (b) if he/she does not accept, to each of the other players having such a wager in turn clockwise around the table.
- 5.10 The first player to accept the dice when offered shall become the new shooter, and shall choose and retain 2 of the dice offered. The remaining dice shall be returned to the dice bowl, which shall be placed immediately in front of the stickperson.
- 5.11 If there is no eligible player available or willing to accept the dice and any undetermined wager remains, the stickperson shall throw the dice until a determination has been reached or a 7 Out thrown.

6.0 Irregularities

- 6.1 If a die leaves or dice leave the table:
- (a) an immediate effort shall be made to retrieve the die or dice;
 - (b) the remaining dice shall be offered to the shooter for him/her to select a new die or dice. The shooter may select a new die or new dice, as the case may be, or request the original die/dice back again;
 - (c) if the missing die is or dice are found, the game supervisor shall carefully inspect it or them for damage, alteration or any other

irregularity before either returning it or them to the shooter (if the shooter so requested) or placing it or them back in the dice bowl;

- (d) if a die is or dice are lost, a new set of dice shall be placed on the table and the remaining dice of the set previously in use shall be removed from the table. To avoid any delay in the game, the shooter at the time of the die or dice becoming lost shall be allowed to continue with the remaining dice of the original set until he/she rolls a 7 Out or until his/her wager wins and he/she declines further rolls of the dice.

6.2 If a die does not land flat on the table, the face directly opposite the face that is resting on the chips or other object shall be considered uppermost.

6.3 If there is a dispute as to which face is uppermost, the game supervisor shall have the discretion to determine which face is uppermost or to order that the roll be deemed void and the dice re-thrown.

6.4 If:

- (a) any of the dice leaves the table; or
- (b) 1 die comes to rest on top of the other; or
- (c) any of the dice comes to rest on the chips constituting the craps bank of chips located in front of the game supervisor; or
- (d) any of the dice comes to rest in the dice bowl in front of the stickperson or on any of the rails surrounding the table; or
- (e) more than 1 face of a die is resting on a stack of chips or other object; or
- (f) a fraudulent die or technique is used in the roll of the dice; or
- (g) any die other than one approved for the game is used in the roll; or
- (h) any of the dice is rolled in such a way that it would be impossible to call the natural fall of the dice; or
- (i) someone other than the shooter chosen by the casino operator rolls the dice,

the stickperson or game supervisor shall announce a “No roll”. The roll shall be void whether or not a “No roll” is announced.

6.5 If:

- (a) the dice do not leave the shooter’s hand simultaneously; or

- (b) any of the dice fails to strike an end of the table; or
- (c) for any other reason the stickperson or game supervisor considers the roll to be improper; or
- (d) any other irregularity has occurred,

the stickperson or game supervisor may void the a roll by announcing a “No roll”.

- 6.6 The fact that a roll of the dice results in either or both of them coming into contact with any chips on the table, other than the craps bank of chips located in front of the game supervisor, shall not be cause for a call of “No roll”.
- 6.7 A call of “No roll” made under rule 6.4 or 6.5 shall, whenever possible, be made before the dice come to rest.
- 6.8 The game supervisor shall overrule the stickperson if, in his/her judgement, the stickperson has made an error in calling the throw of the dice.
- 6.9 The casino supervisor who is responsible for the pit in which the table is located may overrule the stickperson and/or game supervisor, if in his/her judgement, the stickperson and/or game supervisor has made an error in calling the throw of the dice.
- 6.10 The casino supervisor may overrule the stickperson and/or game supervisor if, in his/her judgement, that person or those persons, as the case may be, has or have made an error in calling the throw of the dice. Similarly a more senior casino supervisor may overrule a less senior casino supervisor in the same circumstances.
