Request a document Authentication or Apostille

Te Tari Taiwhenua
Internal Affairs

Before you send this application, you need to check:

1. the other organisation's requirements and
2. that your documents meet New Zealand's requirements for an Authentication or Apostille.

Document requirements

1. **Organisations** may have specific requirements for
 - the age of the documents
 - any translations requirements, and
 - document processing either as individual documents or as a set of documents.

Individual documents

Set of documents

We can't help with these requirements. You must contact the relevant organisations directly if you have questions about them.

2. **Our department** has specific requirements depending on the type of document. Check the table on the next page and visit www.govt.nz/authentications for more information on document requirements.

If your document requires notarisation then notarypublic.org.nz can help you find a notary public near you. We don't accept documents witnessed by a Justice of the Peace or a solicitor.

How long it takes

Usually it takes between 3 to 7 working days to process your documents plus the time it takes for them to be delivered to you.

We don't have an urgent service. If you have exceptional circumstances and want us to consider processing your document urgently, print "Urgent" on your application form and explain why you need the documents processed urgently.

Does your document require Notarisation by a NZ Notary?

- *A Notary is a special type of lawyer, however not all lawyers are Notaries.*
- *We will only accept documents notarised by those listed on <http://notarypublic.org.nz> (i.e. we do not accept JP's, Court Registrars, Lawyers).*
- *Fees vary between Notaries so you may want to phone more than one.*
- *The Notary will produce a "Notarial Act" which states exactly what they have done i.e. witnessed a signature or certified a true copy.*
- *If you are overseas you should discuss with the Notary the best way to get your document to them.*

1 Search for a Notary at <http://notarypublic.org.nz>

2 Phone the Notary to make an appointment.

3 Ensure the Notary has completed the following so the document does not need to be returned to you:

- a) made a **Statement** which sufficiently describes what the Notary has done and is readable (just 'witnessed' or 'notarised' are insufficient as it is not clear what has been done), and
- b) included the **Name** and **Signature** of the Notary, and
- c) added the **Seal/Stamp** of the Notary, and
- d) stated the **Date & Place** where the Notarial Act was done, and
- e) any **Underlying document(s)** match what is said in the Notarial Act and it is clear the documents were seen by the Notary. To make it clear the Notary has seen all pages of a multi-page document some Notaries will ribbon all pages and secure the ribbon with their seal. Other Notaries will initial or seal every loose page to show they have viewed each page.

4 Post the document which has been Notarised to the Authentication Unit with this 'Request a Document Authentication or Apostille' application form.
